# **2009 Workers' Compensation Educational Conference**

## ***Utilization & Treatment Guidelines in a Workers' Compensation System***

**Tuesday, January 13, 2009  
9:00am-4:30pm  
(one day)**

**Best Western Great Northern Hotel  
Helena, MT**

**Presentations:**

1. ***Utilization and Treatment Guidelines—What They Are and How They Are Used in Workers' Compensation*** presented by Dr. William Nemeth, former medical director for the Texas Workers' Compensation Commission
2. ***Quality of Care in Workers' Compensation and How to Select Utilization and Treatment Guidelines*** presented by Dr. Teryl Nuckols, Assistant Professor of Internal Medicine at the University of California, Los Angeles (UCLA) and a health services researcher for the RAND Corporation
3. ***Utilization and Treatment Guidelines and the Injured Worker*** presented by Dr. Stephen Levin, Division Chief of the Department of Community and Preventive Medicine in New York, and Co-Director of the Mt. Sinai-Irving J. Selikoff Clinic for Occupational and Environmental Medicine.

In addition, these speakers and other jurisdictional representatives from Washington State and Colorado will address the experience of adopting guidelines in each of their states.
